

*This Unit Has Been Equipped with*

## GETTING STARTED...

Turn on the SmartCamp switch located inside your Cirrus Truck Camper.

On your smart device, open the WiFi settings and connect to the **SmartCamp** network using the password **12345678**

Once connected, open a web browser, i.e., Safari or Chrome and go to **<https://smartcamp.local>**

Once the page has loaded, you'll be able to control your Cirrus Truck Camper:

***Interior & Exterior Lights***

***Accent Lighting***

***Fan-Tastic Fan***

*NOTE: You must be inside or within proximity of your Cirrus Truck Camper to use SmartCamp. An active internet connection is not needed.*
